The Southern Piedmont Collection

Wagon Barn

The Portfolio's Southern Piedmont collection is based on the traditional farmhouses built east of the Blue Ridge mountains in Virginia, the Carolinas, and Georgia. True American classics, these home designs pay homage to the houses that sheltered and nurtured so many American families for generations.

Carriage House

The Wagon Barn and the Carriage House are designed to be compatible with the farmhouses. These traditionally styled outbuildings can be used as guest houses, garages, small barns, and home offices.
